

HBYC Tech Committee Update 2.16.23

The Tech Committee met on Wednesday, February 15 at the Club and via Zoom. Members attending in person were Cathy McNulty, Frank Kearney, and Bob Carpenter. Members attending by Zoom were Jim Gaulin, Scott Phillips, and Chuck Effinger.

Also in attendance was member-renter Steve Sanchez, CE-44. Steve owns and has an interest in companies that install WIFI. Some of their projects include the World Trade Center, the City of Las Vegas, Indy Motor Speedway, Yankee Stadium, the entire NYS Health and Hospitals Corp Facilities, Dallas Cowboy Stadium, and their practice facility, Star. Steve generously volunteered to assist the Committee as we explore the options and expenses involved in either repairing or replacing our present system.

We appreciate the generous donation of his time and experience that he has given us, there is no one easy solution.

Christopher Glenn of Select Audio and Video attended a portion of the meeting to discuss his proposal. At this time we are still waiting for a quote from Tech II, our current provider.

Both Steve and Christopher offered insight into how we can move forward with this project. We all agreed that the meeting brought new information and problems to light. The gathered information and proposals by the committee will be presented to the Board for their consideration and vote in the near future.
